- **Aerohive products, excluding accessories, are controlled under 5A002**
 - Also applicable for EU
- **“Telecommunications & Information Security (Encryption)”**
- **“Dual Use” – commercial & military application**
- **Covered under the Wassenaar Agreement.**

The Wassenaar Arrangement has been established in order to contribute to regional and international security and stability, by promoting transparency and greater responsibility in transfers of conventional arms and dual-use goods and technologies, thus preventing destabilizing accumulations. The aim is also to prevent the acquisition of these items by terrorists.

Participating countries seek, through their national policies, to ensure that transfers of these items do not contribute to the development or enhancement of military capabilities which undermine these goals, and are not diverted to support such capabilities.
